New theme: US-style models

To mark the 250th anniversary of the USA, our range is being expanded to include several new models in typical American architectural style. These include a classic courthouse, a characteristic petrol station, a holiday home and two bungalows. The models offer a wide range of possibilities for creating authentic American scenes and add further attractive designs to our range.

FALLER Workshops 2026

Creative modelling experiences for beginners and professionals. Experience the fascination of model making up close! In our FALLER workshops you can expand your skills, try out new techniques and exchange ideas with other modelling enthusiasts.

Model building workshop

Experience how an impressive model layout is created from individual components - step by step. Our experienced model builders will show you how to

realise your dream of your own diorama or a complete layout: from the substructure to landscaping and water design to realistic ageing (patination) of models. The workshops will cover a variety of topics - from the basics to more in-depth topics. With lots of tips and practical examples, you can bring your modelling ideas to life.

15 - 17 October 2026

Topic: Plant construction basics

06 - 08 November 2026

Topic: Loading at the stopping point

20 - 21 November 2026

Topic: Patination with a focus on heavy industry

04 - 06 December 2026

Topic: Winter

The number of participants is limited.

Further information at: faller.de/en/workshops

Car System

Discover how realistic road construction is created - from vehicle technology and control modules to perfect traffic planning. This is how you create detailed road layouts and dynamic traffic scenes.

27 - 29 November 2026

Topic: Car system basics

Car System Digital »One-day seminar«

In this seminar, you will learn about all the special features of digital vehicles and their interaction with the Car System Digital hardware and software.

You will learn how ultrasonic localisation works, how communication takes place via radio and how the control system is structured (Knowledge of the analogue Car System is required).

13 November 2026

Topic: Car System Digital Basics

Car System Digital »Vehicle conversion«

NEW: Now with a compact conversion board. Over the course of two days, you'll learn everything you need to know – both in theory and in practice – to convert a conventional, analogue Car System

vehicle to Car System Digital operation. Once the conversion is complete, your model vehicle will feature numerous new digital functions, opening up a whole new range of possibilities for driving.

16 - 17 November 2026

NEW – Vehicle conversion with a small conversion board

Limited-edition promotional sets – available for a short time only!

FALLER quality at a special price: discover three limited-edition promotional sets in H0 gauge on the themes of railway station, Halloween and funfair. Available once only – while stocks last!

130026

Blast furnace with casting hall

For our 2026 anniversary model, we are bringing industrial history to life! We took our inspiration from the Meiderich steelworks in Duisburg, founded by August Thyssen at the beginning of the 20th century. Pig iron was produced there for decades - until the last of five blast furnaces went out in 1985. The model recreates the plant's legendary blast furnace 2 and brings the coal and steel industry into the model world. A technically and historically fascinating theme that deliberately goes far beyond our regular new products to mark our 80th anniversary. At the same time, we are building a bridge to another historical milestone: 75 years of the European Coal and Steel Community. The European Coal and Steel Community, the nucleus of today's EU, once opened up duty-free access to coal and steel - and thus paved the way for economic unification and lasting peace in Europe. A model with history, vision and weight - for collectors, history and technology enthusiasts and anyone looking for a challenge!

The model includes the blast furnace with revolving frame, the inclined lift with winch house, a dust collector, the Y-pipe with associated pipes, a gas flare, the casting hall with gantry crane and a small day bunker.

Epoch III - 720 x 450 x 545 mm - 10/26

ANNIVERSARY MODEL
2026

180721

»Blast furnace« Technology kit

Experience a fascinating industrial atmosphere in your model world!

Contents:

- Pre-assembled tier lighting with 58 LEDs
- Flaring chute lighting with COB LED strip
- 2 servos for the realistic movement sequences of the tap hole drill and the tamping machine
- Power supply unit for reliable power supply
- Control unit with fixed sequence control - can also be controlled digitally for perfect staging

ATTENTION:

The technology kit can only be built TOGETHER with the article Blast Furnace Art. No. 130026. Subsequent installation of the technology kit is NOT POSSIBLE!!!

10/26

130019

Cooling tower

In reality, cooling towers are used to dissipate waste heat from industrial processes into the environment via evaporative cooling. This model is therefore ideal for creating realistic and detailed representations of industrial plants. A relief design is possible.

Epoch III • Lasercut model • 224 x 90 x 254 mm • 12/26

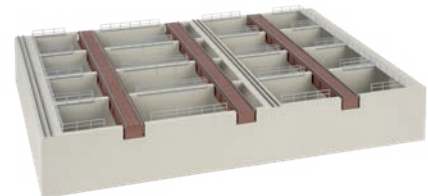

130022

Möller bunker

The Möller bunker brings an authentic industrial atmosphere to the model railway layout – perfectly matched to the blast furnace with casting hall, Art. 130026. In steelworks, a Möller bunker is used for the temporary storage of raw materials such as iron ore, limestone and coke, which are collectively referred to as »Möller«. The model can be assembled in two variants and is supplied unpainted. The concrete grey paint (140 ml) required for painting is included in the pack. The model is made from a combination of plastic and MDF parts.

Suitable for the gantry crane, Art. 120293.

Epoch II • 566 x 300 x 83 mm • 11/26

130020

Day bunker

In real-life Möller bunkers, the day bunker is used to feed the blast furnaces with the required material in a targeted manner. The model is designed to match the blast furnace and casting hall both visually and in terms of dimensions, and adds a functional yet realistic detail to the model layout.

Epoch II • 224 x 90 x 254 mm • 10/26

130021

Ironworks administration

This small brick office in the characteristic industrial style brings authentic factory flair to any model layout. The detailed brick façade, the large window fronts and the striking roof design give the building a lively and realistic appearance. Whether as an administration building, workshop office or part of a larger industrial complex - the model fits into a variety of scenes and sets stylish accents.

Epoch III • 113 x 100 x 68 mm • 11/26

130018

Gas washing tower

A scrubbing tower is used to purify industrial raw gas by washing out dust and pollutants. This model is ideal for creating realistic and detailed industrial installations. It allows you to create a cohesive industrial landscape in no time at all.

The model can be supplemented with pipework and supports (Art. 130017) as well as the gas purification system (Art. 130023).

Epoch III • Ø 65 x 173 mm • 11/26

7

180055

Large industrial chimney

An imposing industrial brick chimney towers over the model railway layout. A ladder mounted on the side of the chimney leads up to the opening at a dizzying height. The model is the ideal detail to give a factory a rustic atmosphere and also goes perfectly with the model of the blast furnace with casting hall, Art. 130026. The smoke generator, Art. 180729, fits into the chimney and can be easily installed (not included). This creates a realistic industrial scene in no time at all!

Epoch III • Ø 80 x 600 mm • 09/26

130017

Pipelines with supports

A versatile set of tubes and pipes for the detailed construction of industrial installations. The pipes, with diameters of 22 mm and 18 mm, are available in various lengths and offer a wide range of options for customised pipe routing. The components can be easily fitted onto the designated brackets and effectively showcased.

Epoch III • Ø 18 mm, Ø 22 mm • 01/27

180729 (H0, TT, N, Z)

Smoke generator

The smoke generator uses a paraffin-free evaporation system and contains no harmful substances. It therefore ensures reliable and clean smoke production whilst offering a high level of operational safety. A built-in fan allows you to adjust the smoke output – from a fine mist to clearly visible plumes of smoke. Thanks to this new technology, the miniature world looks so much more authentic!

Technical specifications:

Operating voltage: 12–16 V AC/DC,
inrush current: 1.3 A,
current consumption after
warm-up phase: 0.3 A

11/26

170503

Smoke fluid

The refill bottle contains specially formulated smoke fluid for use in our smoke generator (Art. 180729). Simply top up and create fantastic smoke effects! The contents are sufficient for approx. 10 hours of smoke.

125 ml • 11/26

170679 (H0, N, TT, Z)

»Industry« Patina set

The Patina set is ideal for creating realistic ageing effects with an authentic look. Harmoniously coordinated shades allow you to create convincing representations of rust, grime and signs of wear, and emphasise the industrial look of models in a particularly realistic way. Versatile and easy to use, the set lends models greater depth, atmosphere and a particularly authentic appearance. The set contains 6 bottles (18 ml each) and a brush.

10/26

180319 (H0, N, TT, Z)

»Industry« Model background

This modelling background provides the ideal backdrop for scenes relating to the coal and steel industry. Detailed motifs of typical industrial plants create an authentic industrial ambience and realistically complement modelling projects. Discreetly designed and versatile, the background adds the finishing touch to any model layout.

3200 x 970 mm • 11/26

190095

»Eisele an der Halde« Railway station Promotional set

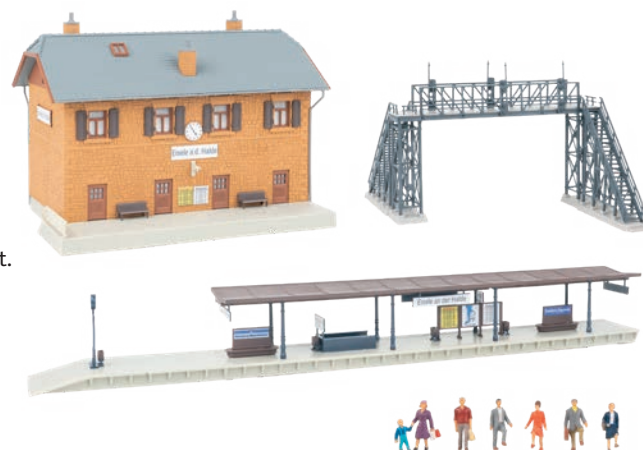

Watch out, the train is arriving! With its sandstone-colored natural stone façade and light grey tiled roof, the »Eisele an der Halde« station adds small-town charm to any model railway layout. The detailed platform and the imposing footbridge complete the scene perfectly, while seven little miniature passengers busily cross the crossing and breathe life into the set.

Contents: Railway station, platform, footbridge, 7 figures

Epoch III • Railway station: 191 x 157 x 138 mm •

Platform: 417 x 48 x 68 mm •

Foot bridge: 162 x 185 x 99 mm

Hobby

131326

»Bochum-Riemke« Signal box

This is where points are set and rail traffic is carefully monitored! With this signal box, you'll have the points in the model railway world firmly under control. Thanks to its functional design and light colour scheme, the building blends harmoniously into traditional station layouts.

Epoch III • 91 x 60 x 92 mm • 12/26

110155

»Steinheim an der Murr« Railway station

At the »Steinheim an der Murr« station, the joy of travelling is in the air - numerous miniature travellers are eagerly awaiting the next train. The two-storey station building impresses with its characteristic shingle and board panelling and two side extensions. The red wooden façade and the lovingly crafted details make the station a real eye-catcher on any model layout. The model is particularly suitable for enriching a small suburb or a tranquil town with a charmingly designed railway station.

Epoch III • 245 x 105 x 140 mm • 12/26

131014

Coastguard

Compact and manoeuvrable - always ready! The model of the small green and white coastguard boat (waterline model - not floatable) is primarily designed for use on inland waters and rivers. With its pointed hull, it cuts through the water with ease and sails to its next mission, proudly bearing the words »Coastguard« and the German flag on the side. The generous loading area offers space for various rescue equipment. So every miniature coast is a little safer!

Epoch V • 247 x 59 x 73 mm • 01/27

131327

Transformer house

A central hub for energy distribution to the local grid! This classic transformer hut impresses with its rustic appearance and a charm all of its own, typical of older buildings. The upper storey, clad in shingles, gives the building a distinctive character, whilst the reddish-brown roof and the cream-coloured ground floor complete the harmonious overall look. Ideal for creating an atmospheric setting on the outskirts of towns, along village streets or in rural scenes.

Epoch III • 65 x 57 x 105 mm • 12/26

Hobby

130663

»Schellen-Ursli« Film set

A model with Alpine charm! This country house model in typical Engadine style is characterised by detailed murals, deep windows with wooden shutters and an inviting arched doorway at the front. Inspired by the backdrop from the Swiss children's film »Schellen-Ursli«, it captures the unmistakable charm of an Engadine village and lends alpine flair to every facility. The film tells the story of the famous Swiss children's book classic Schellen-Ursli by Selina Chönz. According to tradition, winter in the Engadin is driven away every year with the loud ringing of children's bells. However, the boy Ursli only receives a small bell and sets off on an exciting adventure to change this.

Epoch I - 175 x 140 x 125 mm

11

130147

Half-timbered house with farm building

A rustic, traditional half-timbered house with a white arched gateway on the ground floor. The model features numerous charming details, such as the blue window frames and the dark brown tiled roof. The set is complemented by a second building, which serves as a farm outbuilding. Also built in half-timbered style, it features a red tiled roof as well as wooden doors and windows. Ideal for bringing a touch of old town or village charm to your layout and bringing the townscape to life.

Epoch I • Half-timbered house: 120 x 104 x 145 mm •
Farm buildings: 155 x 70 x 136 mm • 01/27

130116

Granary, court chapel and bakery

Traditional Black Forest-style farm buildings: this lovingly designed set combines a detailed granary with a rustic collection of tools, a charming old chapel and a quaint little bakehouse. Each element brings the distinctive character of the Black Forest to your model layout. Ideal for authentically recreating atmospheric village scenes and creating a special ambience – bringing a little piece of the Black Forest into the miniature world.

Epoch I • Storage house: 125 x 116 x 88 mm •
Chapel: 48 x 46 x 90 mm • Bakehouse: 54 x 44 x 50 mm • 12/26

130754

3 Terraced houses

With their colourful facades, elegant grey pointed roofs and a multitude of lovingly crafted details, these multi-storey terraced houses are a lively eye-catcher on any model layout. White railings, windows and doors set harmonious accents and give the model a friendly, inviting appearance. Whether for creating a charming suburban scene, a modern village or as an idyllic row of holiday homes in a leisure complex - these houses fit into a wide variety of situations in a versatile and atmospheric way.

Epoch IV • 260 x 182 x 130 mm • 11/26

130743

»CityLife« WeberHaus, red

This model of a two-storey townhouse with a balcony and hipped roof from the »CityLife« range by the Baden-Württemberg-based prefabricated house manufacturer »WeberHaus« really adds a splash of colour to the development with its bright red façade! The grey garage extension, the grey roof and the pergola over the terrace add visual interest to the model. A must-have for all fans of modern design!

Epoch VI • 166 x 157 x 94 mm

130759

Holiday home

The water splashes gently against the wooden jetty of the blue holiday cottage, filling the pleasant silence with a soft murmur. With its colourful wooden façade, its many details and its charming character, the little cottage looks out invitingly over the beach, waiting for its next miniature visitors. You can't help but feel the urge to step inside yourself and dangle your feet in the water from the jetty.

Epoch III • 164 x 126 x 68 mm • Depth: 30 mm • 12/26

131325

Small house

Children play around the small cream-coloured brick-look house with its red tiled roof, while passers-by stroll past leisurely. With its understated character, it blends harmoniously into the neighbourhood and is particularly suited to the outskirts of a town or a small village landscape. Its simple effect does not push itself into the foreground, but complements the model landscape in a pleasant way. Its simple design makes it ideal for beginners.

Epoch II • 116 x 77 x 61 mm • 12/26

Hobby

190096

»Halloween at the old town tower« Promotional set

The wind whispers a warning as it sweeps round the walls of the old city tower, whose watchful gaze misses nothing. Its walls tower high above the rooftops of the miniature town, casting long, menacing shadows over the alleyways. Deep red blood trickles down the walls and battlements, whilst pumpkins and skulls stare down with vacant eyes and a skeleton's teeth chatter. The tower's light-coloured plaster façade looks ghostly pale in the night, as if the tower itself no longer belongs to the world of the living. A loud chime of the bell shatters the silence; the tower clock heralds the witching hour on Halloween!

Contents: Tower with extension, old town wall with steps, decorative elements: bloody icicles, pumpkins, skulls and an iron cage containing a 3D-printed skeleton.

Epoch II - Tower: 124 x 98 x 383 mm - Old town wall with stairway: 200 x 48 x 120 mm - 09/26

134101

Courthouse

Miniature history comes to life here! A classic American courthouse with a majestic façade, adorned with white columns, a wide flight of steps and imposing entrance gates. The dark red brick façade provides a striking contrast, making the building a real eye-catcher. A small tower proudly flies the American flag, whilst two cannons flank the building, lending it an air of authority.

Epoch I • 205 x 121 x 235 mm

134105

»TEXACO« Petrol station

This petrol station in authentic American style brings a real road trip feeling to your model layout. Red petrol pumps, a small, white brick-built house and the classic canopy give the ensemble its unmistakable character. An ideal detail to bring scenes to life and add a touch of American flair. Perfect for anyone who wants to give their garden that certain something.

Epoch III • 115 x 88 x 56 mm • 01/27

134102

Holiday home

High up on the garage with its stone façade is a charming holiday flat. The stairs lead up to the wooden balcony, from which large windows provide light. A white parasol rounds off the atmosphere and gives the retreat a relaxed holiday flair - ideal for a luxurious break.

Epoch III 114 x 97 x 73 mm

134103

»Country Road 2« Bungalow

A small bungalow with garage and red tiled roof. A stone staircase leads to the entrance and a wooden façade gives the front an inviting charm. Perfect for creating a small model suburb.

Epoch III 137 x 118 x 60 mm

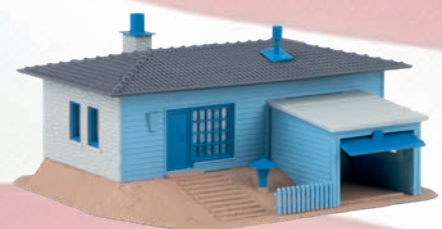

134104

»Country Road 4« Bungalow

A small bungalow with a garage and a grey tiled roof. A flight of steps leads up to the entrance, and a stone façade lends the front of the house a welcoming charm. The blue accents add a splash of colour to the complex. Perfect for creating a small model suburban neighbourhood.

Epoch III 137 x 124 x 64 mm

»Laufenburg« Railway station

»Please step back from the platform, the train is arriving!« - The »Laufenburg« railway station is a hive of activity. The building stands out with its red tiled roof, yellowish rendered exterior walls and white details such as railings, windows and doors. As a more compact station, this model is particularly well suited to depicting small towns or suburbs – and, as an added bonus, brings a touch of wanderlust to any model railway layout.

Epoch IV • 226 x 80 x 72 mm • 11/26

19

222239

Block point with track decoration

Nestled between two railway stations and nestled close to the tracks, the model of a small log cabin with a half-timbered upper floor watches over the safe operation of the railway. Resting on a solid concrete foundation and with brown roof tiles on a pointed roof, in the real world it would fulfil a task that is as important as it is inconspicuous: It ensures that trains find their way safely and collisions are prevented. Lovingly designed details such as track signs, a recreation container and a half-timbered shelter enliven the scenery and lend the model railway layout a special charm. You could almost feel as if you were in charge of the railway traffic yourself and directing the trains safely along the track.

Epoch III • Signal box: 74 x 43 x 68 mm • Large corrugated iron hut: 30 x 17,5 x 21 mm • Small corrugated iron hut: 14 x 12 x 17,5 mm (2 x) • Stop: 45 x 37,5 x 31 mm • 01/27

222601

Box bridge

The track is clear ahead! The train races across the bridge at full speed, cutting its way through the countryside. The model of the classic box-girder bridge adds variety to the route and blends harmoniously into any miniature world.

Epoch II • 239 x 48 x 85 mm • Clearance height: 48 mm • 01/27

272811

20' Container and 40' Container, set of 4

Epoch V • Container 1: 38 x 15 x 16 mm (2 x) • Container 2: 76 x 15 x 16 mm (2 x) • 01/27

222236

Coaling plant

The journey can continue! With a dusty roar, the coal falls from the rustic coaling station directly into the locomotive and provides the urgently needed fuel for the next stage. With its red-brown brick façade, the detailed control elements and the platforms in a realistic wooden look, the layout exudes the charm of past railway eras. A lovingly designed highlight that adds atmosphere and life to any model railway layout.

Epoch II • 77 x 68 x 69 mm • 11/26

222229

Mineral oil trade

In a compact space, this model of a petrol station – featuring a grey finish and the BP logo – depicts a typical transshipment point for fuels and lubricants. Small tanks, the filling area and the small depot combine to create a harmonious industrial scene. Tanks and warning signs, pipes and technical elements add a functional finishing touch to the scene.

Epoch III • 160 x 115 x 39 mm • 12/26

222270

Car workshop with accessories

A small car workshop in white with striking blue windows and gates as well as a typical tin roof. The detailed interior design creates a lively workshop atmosphere and invites you to take a closer look. The set also includes matching accessories such as car tyres and large rubbish containers, which round off the overall picture and offer additional design options. Ideal for realistically complementing workshop and repair scenes.

Epoch III • 91 x 64 x 34 mm • 12/26

232136

Windmill with plaster base

The white-brown wings of this lovingly designed windmill with thatched roof and white façade turn quietly - a charming eye-catcher for any model landscape.

The wings on this model can be realistically moved by installing the motor (Art. 180722, max. 5 V, DC voltage). The motor can only be installed at the same time as the kit assembly. Motor not included.

Epoch I • 130 x 95 x 175 mm • 09/26

232129

Barn with raised driveway

The rustic barn rises two storeys above the ground with its wooden panelling and conveys an atmospheric rural ambience. Lovely details such as the roof weighted down with stones as well as fences and crates round off the model and make it particularly lively. Ideal for creating rural scenes.

Epoch I • 178 x 124 x 64 mm • 10/26

21

232153

»CityLife« WeberHaus, red

The model of a two-storey townhouse with balcony and hipped roof from the »CityLife« series by the Baden-Württemberg prefabricated house manufacturer »WeberHaus« brings a real splash of colour to the site with its bright red façade! The grey balcony, the grey roof and the covered entrance lighten up the look of the model. A must-have for all fans of modernity!

Epoch VI • 109 x 87 x 49 mm • 11/26

272565

Urban design set II

Various elements such as street lamps, rubbish bins, advertising hoardings, advertising columns, flower beds, benches, fences and much more offer a wide range of design possibilities. With these details, you can create harmonious city scenes in no time at all, lending your miniature world a particularly lively and realistic charm.

»Freilassing« Supplementary set roundhouse

The supplement contains a 2-stall roundhouse, matching Art. 282725, »Freilassing« roundhouse, to add two more bays. The model is based on the listed original in Freilassing in Bavaria. This is now home to a railway museum (lokwelt.freilassing.de) and is therefore an interesting addition for all modelling and railway enthusiasts. The roundhouse has a pitch of 15 degrees. Locomotives up to a length of 120 mm can enter without any problems.

Epoch III • 155 x 140 x 54 mm • 12/26

24

282725

»Freilassing« Roundhouse, 5-stall

Steam hisses from an old locomotive and the busy railway operations around the engine shed bring the miniature model to life. The impressive 5-stall "Freilassing" roundhouse with its roof riders and detailed side and rear windows is modelled on the listed original in Freilassing in Bavaria. This is now home to a railway museum (lokwelt.freilassing.de) and is therefore an interesting addition for all modelling and railway enthusiasts. The new plastic mould has a pitch of 15 degrees. Locomotives up to a length of 120 mm can enter without any problems. Distance from centre of turntable to gate: 125 mm

Epoch III • 331 x 172 x 53 mm

282701

»Rathenow« City railway station

This model captures the charm of the turn of the century: a light turquoise roof, light yellow stone façade and a glazed platform roof on the railway side give the station character. The clear clinker brick construction and loving details make it an atmospheric centrepiece of any layout. The model is architecturally independent and bears no relation to the original railway station in Rathenow (Brandenburg).

Epoch I • 199 x 85 x 61 mm

190094

»Ruhrpott funfair« Promotional set

Colourful lights, hustle and bustle and cheerful children's laughter fill the miniature funfair. A yellow carousel, colourful stalls with treats and attractions, a bouncy castle, a sausage stand and a funfair float invite you to linger and are reminiscent of the typical funfairs of the Ruhr region - you'll want to stroll through the funfair yourself! The carousel can be motorised with the synchronous tinker motor, Art. 180629 (this is not included in the set).

Contents: Carousel, sausage stand, bouncy castle, 2 fairground stalls, toilet carriage

Epoch IV • Carousel: 125 x 125 x 115 mm • Snack: 120 x 85 x 72 mm • Bouncy castle: 78 x 85 x 63 mm • Booth 1: 106 x 42 x 68 mm • Booth 2: 95 x 42 x 76 mm • Toilet wagon: 70 x 25 x 44 mm

25

140484

»Der GeNuss Laden« Sales stand

The scent of roasted almonds hangs in the air, wafting gently across the fairground. It comes from the small, brightly coloured yellow stall and draws the miniature visitors in droves. This model is a brand-new design and, with its colourfully decorated façade, playful sign and lovingly crafted details, looks very inviting. It's ideal for adding even more detail to fairground or Christmas market scenes, as well as funfair scenes. It almost makes you want to join the queue yourself and buy a few nutty treats!

Epoch VI • 81 x 41 x 61 mm • 11/26

140485

»La Bamba« Chocolate fruit stall

The sweet scent of chocolate-covered fruit wafts through the fairground, magically drawing in the miniature visitors. All sorts of sweet treats are on offer from the small, colourfully decorated stall. The stall is a new design and is sure to delight with its colourfully decorated façade; with its eye-catching sign and many lovingly crafted details, the model creates a particularly atmospheric ambience. Ideal for decorating funfairs, Christmas markets or lively fairground scenes. It really makes you fancy a sweet treat!

Epoch VI • 81 x 71 x 63 mm • 11/26

CAR SYSTEM

161478

Car System Start-Set MB 0 303 »Black Forest« (WIKING)

The Black Forest bus travels leisurely along the winding country roads between dense spruce forests. The miniature passengers gaze in amazement at the picturesque landscape - a holiday feeling comes to mind. Painted in a light cream colour and with a detailed Black Forest motif on the side, the bus sets a beautiful accent and adds a lovely detail to the miniature landscape.

Contents:

- MB 0 303 »Black Forest« (WIKING)
- USB charger
- 10 m of special contact wire
- Road filler
- Road paint
- Road markings
- Crash barriers
- Boundary posts
- Detailed instructions

Epoch IV • 09/26

Technical vehicle details:

- Microswitch for on/off
- Powerful, wear-resistant drive motor
- Solid rubber tyres for safe grip
- Steerable oscillating axle with slider and magnet
- Integrated NiMh battery
- 3-pin charging socket
- Reed contact

161452

Lorry MB Atego »XXXLutz« (HERPA)

Attention - the next furniture transport is arriving! The white XXXLutz lorry rolls into the driveway, ready for unloading. With its white colour and the striking imprint of the furniture store on the side, it immediately catches the eye on the model layout and sets a lively accent.

Epoch V • 10/26

161453

Lorry Iveco Hauber tipper (HERPA)

Ready for the next journey! The dark green Iveco tipper truck rolls in and brings the model layout to life. With its red accents and coal-laden flatbed, the model looks robust and is highly versatile. A fitting detail that perfectly complements construction and industrial scenes in particular.

Epoch IV • 11/26

163122

4 Tyres and rims for small cars

This set of 4 consists of tyres and matching rims and is ideal as a spare or replacement part for Golf and C-Class models. The precisely fitting components ensure a realistic look, stable road holding and improved driving behaviour for your model.

10/26

CAR SYSTEM DIGITAL

161340

Car System Digital, Start-Set Lorry MB Atego »FedEx« (HERPA)

An easy introduction to the world of Car System Digital: this starter set contains all the essential components you need to get started straight away. No searching, no retrofitting: unpack, assemble, set up and start straight away.

The highlight of the set is the white lorry with typical Car System Digital functions. As soon as the system is set up, it becomes an active part of the model world and ensures lively scenes on the miniature roads, where it reliably delivers its goods.

Bundle consisting of:

- 161346 Car System Digital, radio master
- 161345 Radio extension module
- 3 x 161360 Car System Digital, single satellite, small
- 180699 Transformer, 66 W
- 161349 Processor-controlled charging station
- 161315 Car System Digital Lorry MB Atego FedEx (HERPA)

Epoch V • 11/26

161328

Car System Digital, Lorry MB Atego »XXXLutz« (HERPA)

Attention - the next furniture transport is arriving! The white XXXLutz lorry rolls into the driveway, ready for unloading. With its white colour and the striking imprint of the furniture store on the side, it immediately catches the eye on the model layout and sets a lively accent.

The vehicle is equipped with full digital technology incl. vehicle location and the individual functions can be controlled directly when in operation (only for the overall system). With front headlight, rear lights, brake lights and turn signals. Multi-stage driving possible. The acceleration and braking pattern, as well as the acceleration rates are set by the factory. However, they can be adjusted individually.

Epoch V • 10/26

27

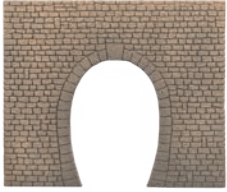

180699

Transformer, 66 W

Efficiency-optimised switching power supply for model building systems - compact, reliable and future-proof. With an optimised output module for a wide range of applications, it supplies 16 V AC (3.13 A), 12 V DC (3 A) and 5 V DC (3 A). Thanks to state-of-the-art technology, it fulfils the current legal requirements for energy saving in accordance with the Ecodesign Directive - for maximum efficiency and sustainability.

»Landscape park« signpost

Standing quietly by the side of the path, it quietly points the way: the »Landschaftspark« signpost guides the miniature visitors through the history of the coal and steel industry and leads them safely to the various stops along the route.

11/26

180019 (HO, TT, N)

»Graffiti« Decal

Freshly sprayed and definitely not completely legal: this graffiti brings character to the layout. Between walls, along the tracks or in hidden corners, they create cheeky, urban accents. Small details with a big impact for anyone who wants to give their model landscape a dose of street culture.

12/26

The model water can be mixed with the other model waters (Art. 171672, 171674 and 171654) to create an even more realistic image.

171672 (HO, N, TT, Z)

Model water, blue-green

Blue-green tinted 1-component modelling water for lively scenes with depth effect. Whether a gently flowing stream, calm lake or small puddle at the edge of a path: this model water creates realistic water surfaces with a natural play of colours. Easy to use and effective in its results, the modelling water creates more atmosphere and detail in the model landscape.

100 ml • 12/26

171673 (HO, N, TT, Z)

Model water, light blue

Light blue tinted 1-component modelling water for lively scenes with depth effect. Whether a gently flowing stream, cold mountain lake or seawater in the Caribbean: this model water creates realistic water surfaces with a natural play of colours. Easy to use and effective in its results, the modelling water creates more atmosphere and detail in the model landscape.

100 ml • 12/26

171674 (HO, N, TT, Z)

Model water, brownish

Brownish tinted 1-component modelling water for lively scenes with depth effect. Whether it's a raging river, muddy lakes or puddles at the side of the road: this model water creates realistic water surfaces with a natural play of colours. Easy to use and effective in its results, the modelling water creates more atmosphere and detail in the model landscape.

100 ml • 12/26

The FALLER frame modules provide the ideal basis for layout construction and can be used in a variety of ways - also perfect as a practical model railway table for a wide range of work. The modules come as an uncomplicated kit that can be assembled in just a few minutes: Simply glue all the parts together with Colofix (Art. 180501, not included), without any screws or additional tools! If you want even more stability, you can pre-drill the modules and screw them together. Made from robust, 8 mm thick wood, the modules are both strong and pleasantly light - a clever solution for any modelling project.

Please note: The feet are not included in the scope of delivery. However, they can easily be supplemented with square strips or aluminium feet.

Artificial ice rink

Bitingly cold air hangs over the ice rink – but the little figure skaters (not included) aren't going to let that stop them. The artificial ice rink, complete with a covered spectator area, a kiosk, a toilet block, two large advertising pillars and a fully designed perimeter barrier, brings the hustle and bustle of winter to life on the model layout. Whether for thrilling competitions or simply as an atmospheric detail in a winter diorama: the realistic design and the many lovingly crafted elements make the layout a real eye-catcher – and almost make you want to put on your skates yourself.

Epoch IV • Ice rink: 173 x 153 x 12 mm • Kiosk: 54 x 25 x 34 mm • Roofing: 128 x 75 x 90 mm • Outside toilets: 54 x 18 x 34 mm • Depth: 10 mm • 12/26

134008

Christmas tree sale

The air is filled with the scent of pine needles, your breath freezes in the air and it's hard to choose – the Christmas tree sale brings a wintry atmosphere to the model railway layout. With 5 figures, 8 fir trees, a sales hut, a fence and a mesh machine, you can create a detailed scene full of pre-Christmas hustle and bustle and atmosphere in no time at all.

32 x 29 x 37 mm • 10/26

181584

2 Beech trees, snow-covered

The snow lies lightly on the branches, while the landscape comes to rest. These two snow-covered beech trees bring an atmospheric winter ambience to the model layout. Designed in great detail, they set peaceful accents and blend harmoniously into any winter scene.

180 mm • 09/26

Advent is here – and with it, the anticipation of Christmas. The festively designed FALLER Advent calendar turns every day in December into a little highlight for model-making enthusiasts. Behind each of the 24 lovingly designed doors lies a different miniature figure – richly detailed, vividly staged and full of character. Day by day, a little scene takes shape, bringing everyday moments and festive occasions to life on your model layout. This Advent calendar combines the joy of collecting with the magic of the run-up to Christmas, ensuring that the time leading up to the festive season becomes a little bit more wonderful with each passing day.
